

search::writeResults

```
graph LR; A[search::writeResults] --> B[Batch::writeResults]; B --> C[debugMessage];
```

The diagram illustrates a sequence of three function calls. The first call, 'search::writeResults', is contained within a grey rectangular box with a black border. A dark blue arrow points from this box to the second call, 'Batch::writeResults', which is in a white box with a red border. Another dark blue arrow points from the second box to the third call, 'debugMessage', also in a white box with a red border. The boxes are arranged horizontally from left to right.
